As a part of the Housing and Economic Recovery Act of 2008, the Department of Housing and Urban Development (HUD) created the Neighborhood Stabilization Program (NSP) to mitigate the neighborhood effects of foreclosure and to stimulate the housing market. In April 2009, under the NSP program, Lt. Gov. Becky Skillman and the Indiana Housing and Community Development Authority (IHCDA) announced up to \$15,000 in assistance for Hoosiers purchasing foreclosed homes in Indiana (the Market Stabilization Program, or MSP). IHCDA designed the MSP to assist income-eligible households with purchasing and rehabilitating foreclosed homes throughout Indiana.

The Market Stabilization Program offers:

- Homebuyers whose household income is at or below one hundred twenty percent (120%) of area median income (AMI) up to \$15,000 to purchase a foreclosed home as their principal residence
- Closing costs and down payment assistance (down payment assistance not to exceed twenty percent (20%) of purchase price) to acquire the foreclosed home
- Rehabilitation funds to bring the foreclosed home up to local building code
- Loan structured as a zero-interest, non-amortizing second mortgage loan, not required to be repaid if the property remains the homebuyer's principal residence for at least ten years
- Loan subject to receipt of eight hours of pre-purchase education provided by a certified counselor
- An easy online tool at www.indianahousingnow.org to determine if a foreclosed property is in an eligible neighborhood

Executive Summary

Lender Eligibility

- **Participating Lender:** A “Participating Lender” is one that has signed a Mortgage Origination and Sale Agreement (MOSA) or a Mortgage Credit Certificate (MCC) Loan Origination Agreement with IHCDA. Participating Lenders are eligible for all of the program uses listed in the “Program Uses” section.
- **Non-Participating Lender:** A lender that has not signed a MOSA or MCC Loan Origination Agreement shall be deemed a “Non-Participating Lender” and must sign an MSP Participation Agreement, found at <http://ihcdaonline.com>. Non-Participating Lenders are eligible for the program use indicated below in the “Program Uses” section.

Program Uses

- **First Home with MSP** – Combines with IHCDA’s MRB, below market interest rate program. In combining the two programs, all MSP and Mortgage Revenue Bonds (MRB) guidelines must be followed, including income limits, acquisition limits, the first-time homebuyer guidelines and all applicable fees (**refer to the MRB Program Guide**). The first mortgage must be sold to US Bank and IHCDA will service the second mortgage. **This combination is only available to IHCDA’s Participating Lenders.**
- **MCC with MSP** – Combines with IHCDA’s MCC program. In combining the two programs, all MSP and MCC guidelines must be followed including income limits, acquisition limits, the first-time homebuyer guidelines and all applicable fees (**refer to the MCC Program Guide**). The lender will sell the first mortgage on the secondary market and IHCDA will service the second mortgage. **This combination is only available to IHCDA’s Participating Lenders.**
- **MSP Stand-Alone** – Only MSP guidelines are followed. Allows lenders and/or brokers to use any conforming first mortgage product of their choice. The first-time homebuyer guideline is waived and the buyer is required to meet the income guidelines set for the MSP Stand-Alone product - a household income at or below one hundred twenty percent (120%) AMI. **This option is available to Participating Lenders and Non-Participating Lenders.**

Borrowers will need to know that:

1. Borrowers must meet the appropriate **income limits**. Income limits vary by county and are dependent on family size. When combining MSP with IHCD's First Home or MCC programs, the home must fall under the federally determined **acquisition limits**. Acquisition limits vary by county.
2. The home must be the borrower's principal residence.
3. Borrowers must have completed eight (8) hours of pre-purchase homeownership counseling from a HomeEc or HUD-approved counselor before the loan can be approved by IHCD.

Lenders will need to know that:

1. The property must be in an "area of greatest need" as identified in the Substantial Amendment to IHCD's Action Plan, as approved by HUD. Analysis of whether property is in an "area of greatest need" can be conducted on www.indianahousingnow.org
2. The property being purchased must have been foreclosed upon.
3. The property must be reviewed to verify if there was either HOME or CDBG assistance previously used, as forgiveability periods may be extended.
4. The property being purchased must be sold, at a minimum, at a one percent (1%) discount to the current market appraised value.
5. Required repairs are those necessary to bring the property up to habitability, marketability and livability standards (Standards) so that the loan is eligible to be sold on the secondary market.
6. The income calculation for a borrower's eligibility is different than that used for mortgage qualification. Additional income will need to be added to determine eligibility.
7. Non-occupant co-signers must sign the note only, and are **not** allowed to sign the mortgage or take title.
8. Loans will need IHCD approval prior to closing.
9. Race, gender and ethnicity of borrower(s) must be collected.
10. **Tracing borrower or seller signatures is considered forgery. Any lender caught forging documents will be suspended from the program and the pertinent information will be turned over to the proper state and local authorities.**

Guidelines and Requirements

Loan Types and Additional Loan Requirements

- The first mortgage loan must be a conforming loan product that is eligible to be sold on the secondary market, such as FHA, VA, Conventional and USDA loan types. IHCDCA cannot provide the first mortgage loan.
- No cash buyers are allowed. Borrower must qualify for and obtain first mortgage financing from an Eligible Lender, which term does not include IHCDCA.
- MSP funds must be used as a second mortgage product and may not be used as purchase money funds.
- Borrower(s) may not receive any cash back other than what is evidenced that they have paid in at closing. Borrowers may get their earnest money deposit back but cannot get a property tax pro-ration back in cash.

Use of Funds

The maximum amount available under any MSP loan is \$15,000. The funds can be used in any combination of these three items:

- **DOWN PAYMENT ASSISTANCE** – the maximum amount that may be applied for down payment cannot exceed twenty percent (20%) of the sales price.
- **PREPAIDS & CLOSING COSTS**
- **REHABILITATION (REPAIRS)** – repairs called for by either the licensed IHCDCA third-party home inspector or identified by the appraiser, as required to be completed, may be paid for using MSP funds. Only those repairs required to bring the property up to Standards may be covered by MSP. **RE-DECORATION AND UPGRADING ITEMS DO NOT QUALIFY FOR MSP FUNDING.** Additional guidelines are found below under the “Rehabilitation” section.

Borrower Eligibility

- Must be a first-time homebuyer, meaning borrowers must not have owned their principal residence within the past three (3) years, when MSP is combined with IHCDCA’s First Home or MCC programs. This restriction is waived for those who buy a home in an area that is

designated as “targeted” (as such term is defined in the MRB or MCC Program Guides under the “Geographic Eligibility” sections). **This does not apply to borrowers applying for the MSP Stand-Alone Program.**

- Must be income-eligible. Borrowers who are applying for MSP loans must meet the income limits for the program. Income guidelines vary by program type (combination or stand-alone), county and household size.
- **Income eligibility includes certain sources of income that a lender typically does not consider in determining eligibility or credit-worthiness for non-federally-assisted financing.**
- **The “Gross Annual Income” of the Borrower(s) must be considered, *as well as the income of any other person intending to reside in the residence who is the age of eighteen (18) and over and not a full-time student.***
- Gross Annual Income should be determined based on gross pay from employment, including any part-time, seasonal or sporadic income, shift differentials, overtime pay, and bonuses. It also includes:
 1. Child support, alimony and separate maintenance payments;
 2. Periodic payments for trust, annuities, inheritances, insurance policies, pensions, retirement funds and lotteries;
 3. All public assistance payments (excluding Medicaid and food stamps) including any amount by which educational grants, scholarships, and/or Veteran Administration educational benefits exceed expenses for tuition, fees, books, and equipment and reasonable rent and utility costs for a student living away from home;
 4. Interest and dividends;
 5. Payments in lieu of earnings, including social security, unemployment benefits, worker’s compensation, severance pay, disability or death benefits;
 6. Income from partnerships;
 7. Rental income for property owned;
 8. Recurring monetary contributions or gifts regularly received from a person not living in the residence; and
 9. All regular pay, special pay and allowances of a member of the Armed Forces, not including hazardous duty pay.

- Each borrower must complete eight (8) hours of one-on-one or classroom style setting homebuyer counseling. Completion of this requirement must be with a HomeEc or HUD-approved agency, and evidenced by a certificate from the counseling agency that performed the training.
- HUD-approved providers can be found at www.hud.gov/offices/hsg/sfh/hcc/hcs.cfm.

Property Eligibility

The property must be in an “area of greatest need,” as identified in the Substantial Amendment to IHCD’s Action Plan, as approved by HUD. To confirm that a property is in an area of greatest need, a lender should enter the property address at: www.indianahousingnow.org. After the website analyzes the property, a lender will receive one of the following messages, “**Your selected property IS located within an area covered by Indiana’s Market Stabilization Program. Funding may be available for qualified purchasers of foreclosed properties**” OR “**Your selected property IS NOT located within an area covered by Indiana’s Market Stabilization Program**”.

The residence must also meet the following requirements:

- (A) The property must be located in the State of Indiana.
- (B) The property must be:
 - (1) A single-family house, including a manufactured home which is permanently affixed to real estate.
 - (2) Foreclosed Upon: A property “has been foreclosed upon” at the point that under state or local law, the mortgage or tax foreclosure is complete. HUD generally will not consider a foreclosure to be complete until after the title for the property has been transferred from the former homeowner under some type of foreclosure proceeding or transfer in lieu of foreclosure, in accordance with state or local law.
- (C) The property must sell at a minimum of one percent (1%) less than the current market appraised value. It would be appropriate to include language such as: “Sales Price not to exceed ninety-nine percent (99%) of the appraised value as determined by the appraiser assigned by the buyer’s lender” in the original Offer to Purchase, to protect the buyer.
- (D) The property must have a current market appraisal done by a licensed appraiser within sixty (60) days of the date of purchase.

- (E) The property must be inspected by an IHCD A-approved third-party inspector and the inspection must be completed on IHCD A's inspection form. A list of approved inspectors can be located at www.in.gov/ihcda
- (F) Borrower must reasonably expect to reside in the property as his/her principal residence within sixty (60) days after the loan closing date.

Rehabilitation

Only if the property calls for repairs to bring it up to Standards will it be eligible for MSP rehabilitation funds. The need for rehabilitation to bring the property to Standards must be identified by the appraiser and confirmed by an IHCD A-approved third-party inspector.

- IHCD A must receive three (3) estimates for the repairs or a "Cost to Repair" from the appraiser.
 - If three (3) estimates are provided, IHCD A will use the middle of the three (3) to determine the amount of MSP funds.
 - If a Cost to Repair is provided, IHCD A will use the Cost to Repair amount to determine the amount of MSP funds.
 - All change order estimates must be sent to IHCD A for approval, including change orders resulting from hidden damage on the property or contractor delays.
- All repairs are required to be completed prior to closing – unless the lender allows an escrow – before IHCD A will approve the closing.
 - If repairs are required to be completed before closing, a final inspection must be done before IHCD A will approve the closing.
- Escrows are allowed, and will be evidenced by the approval from the lender. IHCD A will monitor the use of escrow accounts to ensure such use does not violate 24 CFR 570.489(c).
 - MSP funds may be escrowed in amounts required for the cost of the repairs **ONLY**.
 - No additional amounts of MSP funds may be used to cover sums required by the lender.

Forgiveability Period Requirements

An MSP loan is a zero-interest, non-amortizing second mortgage loan, not required to be repaid if the property remains the homebuyer's principal residence for **at least** ten (10) years. However, if

during the initial five (5) years after the loan closing, borrower is no longer using the home as borrower's principal place of residence, or if there is a refinancing and/or sale of the property, IHCD A must be repaid the entire amount of the second mortgage. After the buyer has used the property as the buyer's principal residence for five (5) years after closing, the MSP loan will become forgivable, as indicated in the following table:

Term (in years from closing date)	Amount Due Back to IHCD A
Years 1 through 5	100%
Year 6	80%
Year 7	60%
Year 8	40%
Year 9	20%
Year 10	0%

Additional Requirements

- A copy of the property's title work must be submitted to IHCD A to evidence that the property has been transferred to the seller through the foreclosure process.
- A copy of the insurance policy will be required to show IHCD A listed as the second mortgagee.
- Homes over 50 years old may be subject to historic review. Examples of possible types of review that may be required include:
 - Ground disturbance
 - Exterior rehabilitation with the exception of painting
 - Remediation of hazardous materials (e.g. lead, asbestos)
